

OZINGA®

OzFlat Premium Flatwork Mix

INCLUDES OZINGA SHIELD AND MICRO SYNTHETIC FIBER FOR ENHANCED DURABILITY

Experience better concrete quality and performance with OzFlat Premium Mix. Included in the OzFlat mix design is Ozinga Shield, an integral sealer that drastically reduces water penetration, increases long-term durability, and improves color vibrancy. Rather than sealing weeks after installation, OzFlat Premium with Ozinga Shield protects like a topically sealed pavement from day one.

OZFLAT IS PERFECT FOR:

- Driveways
- Patios
- Front walks
- Stoops
- Sidewalks
- Stairs

BENEFITS OF OZFLAT:

- Provides protection through full depth of concrete
- No applying or additional work for contractors
- Sealer prevents water ingress in slab
- Enhanced cosmetic look
- Stealth fibers help reduce shrinkage cracks
- Reduce water penetration and increase long-term durability

MIX DESIGN:

STRENGTH: 4,500 psi

SLUMP: 4 - 6"

AIR: 4.5 - 7.5%

- Includes Ozinga Shield & Stealth Fibers
- Perfect for all exterior flatwork
- Meets ACI 318 recommend strength for flatwork in severe freeze-thaw environments
- Excellent workability and enhanced finishing characteristics
- No sealing for the first two years
